

Analytics in Eyefinity EHR

Data holds the power to transform the health of your practice. While other reporting platforms only allow you to track a few basic metrics, Eyefinity® EHR's new analytics package brings together your clinical, operational, and specialty-specific data in interactive reports that will showcase opportunities to grow business and improve patient care.

WITH EYEFINITY EHR ANALYTICS:

- ✓ Analyze visit volume trends, as well as CPT and ICD-10 code distribution
- ✓ Find procedural gaps and improve practice workflow
- ✓ Identify outbound referral patterns and patients lost to follow-up for high-risk diagnoses
- ✓ Track how referring providers affect your bottom line
- ✓ And so much more!

Coding Summary displays digestible graphs to help examine procedure data by ICD-10 and CPT code

Customize patient demographic reports with an extensive list of filters to identify patient trends and insights
