Diabetes: Eye Exam

In this chapter:
- Reporting Methods, 1
- Denominator, 1
- Numerator, 2
- Eyefinity EHR Instructions, 3

Percentage of patients 18–75 years of age with diabetes who had a retinal or dilated eye exam by an eyecare professional during the measurement period or a negative retinal or dilated eye exam (no evidence of retinopathy) in the 12 months prior to the measurement period.

This measure is to be reported a minimum of once per performance period for patients with diabetes mellitus seen during the performance period. This measure may be reported by eligible clinicians who perform the quality actions described in the measure based on services provided and the measure-specific denominator coding.

**Reporting Methods**
- Claims
- Registry

**Denominator**
- Patients 18 to 75 years of age on date of encounter;
- AND is diagnosed with diabetes:
Diabetes: Eye Exam

**Numerator**

Patients with an eye screening for diabetic retinal disease. This includes diabetics who had one of the following:

- A retinal or dilated eye exam by an eyecare professional in the measurement period
- A negative retinal or dilated eye exam (no evidence of retinopathy) by an eyecare professional in the year prior to the measurement period

AND who had a visit during the measurement period:

92002, 92004, 92012, 92014, 99201, 99202, 99203, 99204, 99205, 99212, 99213, 99214, 99215, 99341, 99342, 99343, 99344, 99345, 99347, 99348, 99349, 99350, G0402, G0438, G0439

**Denominator Exclusions**

Patient is using hospice services any time during the measurement period:

G9714
Performance Met

Dilated retinal eye exam with interpretation by an ophthalmologist or optometrist documented and reviewed:

- 2022F

OR seven standard field stereoscopic photos with interpretation by an ophthalmologist or optometrist documented and reviewed:

- 2024F

OR eye imaging validated to match diagnosis from seven standard field stereoscopic photos results documented and reviewed:

- 2026F

OR low risk for retinopathy—no evidence of retinopathy in the prior year (this code may only be counted if the encounter occurred during the performance period):

- 3072F

Performance Not Met

Dilated eye exam was not performed, reason not otherwise specified:

- 2022F with 8P

OR

- 2024F with 8P

OR

- 2026F with 8P

Eyefinity EHR Instructions

Screen the patient for diabetes:

1. Open the Ocular Exam.
2. Select a dilated eye exam.
3. Select a diabetes diagnosis from Impressions.
4. Select a counseling Plan.
5. Select the appropriate condition from the Quality 117 drop-down.
6. Document the rest of the exam and Finalize.

Alternatively, code quality with a special plan:

1. Open the Ocular Exam.
2. Select a Diagnosis and Plan.
3. Tap Special Plans and select MIPS.
5. Tap the Diabetes tab.
6. Select the appropriate condition from the Quality 117 drop-down.
7. Tap Done.
