

REVENUE CYCLE MANAGEMENT SERVICES

THE SMART WAY TO INCREASE YOUR REVENUE

Getting paid correctly and on time is becoming increasingly complex. New government regulations, hiring and managing staff with billing experience, and spending time submitting and tracking appeals takes time away from your top priority: patients.

Let us help you.

Eyefinity® eases the complexity out of your billing and revenue management process. The combination of a reliable, robust solutions platform and dedicated billing professionals allows us to handle these important back office tasks, freeing you to focus on your patients and growing your practice. You'll get the reporting you need to monitor your business performance without the challenges of staffing and staying current on all the details related to billing best practices.

The right products. Experienced people.

We provide comprehensive RCM business process management services, from authorization to billing and collections. We have over 500 associates, including 100 CPC/AHIMA certified and AAPC certified professional coders, helping clients across medical coding, billing and corrections, A/R management and patient billing, denial management and appeals.

Improve your revenue health at a reduced cost.

It's simple math. A higher percentage of clean claims means a reduction in accounts receivable days and increased revenue. And those claims that need to be appealed will be handled quickly and efficiently—we offer revenue cycle management services that include the following:

Patient Access

Eligibility and Patient Estimation

We verify insurance and benefits in order to avoid rejections and denials. Estimations help your patients know their financial obligations up front.

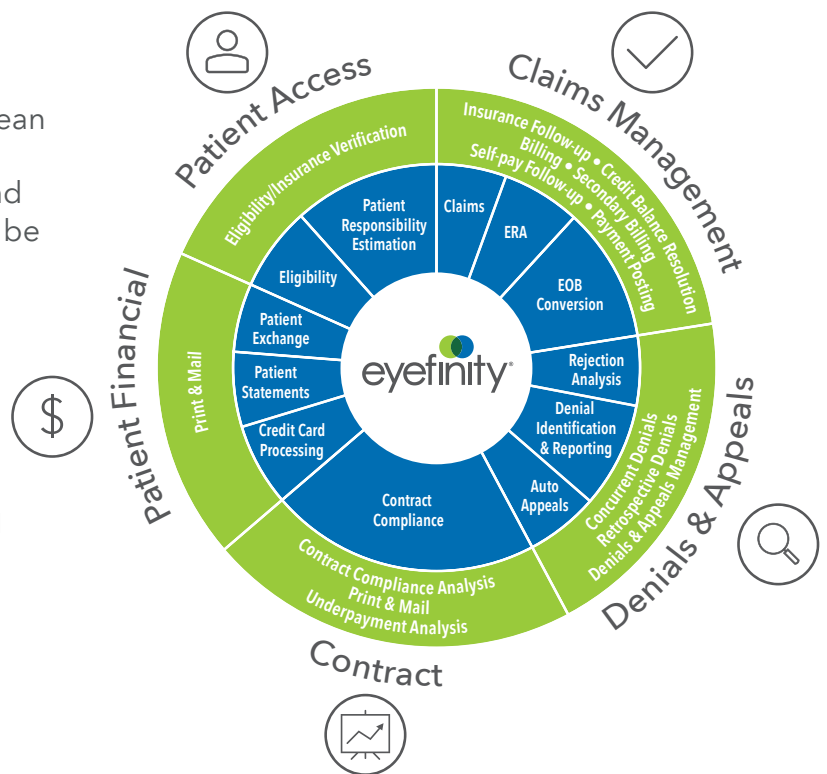

Claims Management

- Claims Submission and Management**
 Billing professionals submit primary, secondary and workers' compensation claims that are cleanly coded and ready for quick payment.
- Payments**
 Posting, adjustments and refunds are all handled by our professional staff.
- New and Existing Insurance A/R**
 All management of payer accounts receivables, including existing A/R.
- Detailed Reporting**
 Our clear reporting enables you to monitor your business performance, real-time.

Denials, Contract Compliance and Appeals

Robust Analytics

Helps us to understand denials, uncover under payments and automate the appeals process on your behalf.

Patient Financial

Patient Statements

Print and mail customized patient statements.

Provider Services

- Credentialing**
 Gather and validate the information required for credentialing and submit new or renewal forms to payers.
- Provider/Practice Onboarding**
